DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claim 56 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. "Electromagnetic signals" are non-statutory subject matter.

Allowable Subject Matter

3. Claims 22-55 are allowed.

Response to Arguments

4. Applicant's arguments, see page 12 of amendment, filed 22 July 2004, with respect to the drawings have been fully considered and are persuasive. The objection of the drawings has been withdrawn.

5. Applicant's arguments, see page 13 of amendment, filed 22 July 2004, with respect to the 35 U.S.C. 101 provisional double patenting rejection. The original claims have been cancelled, but the examiner wishes to state that the new claims of both

applications, 09/933,883 filed 20 August 2001 and 09/933,866 filed 20 August 2000, are considered to no longer have the previous issue of double patenting.

6. Applicant's arguments, see pages, filed 13-16, with respect to previous rejection of the now cancelled claims have been fully considered and are persuasive. Even though the previous claims have been canceled and replaced with new claims, the examiner appreciates the arguments about the new claims concerning the prior art used for the rejection of the previous claims. The examiner agrees with the applicant concerning the limitation, "completing service requests at the first computer pending at the time the first computer was requested to shut down;" as not being taught by the art.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
